# Our Journey

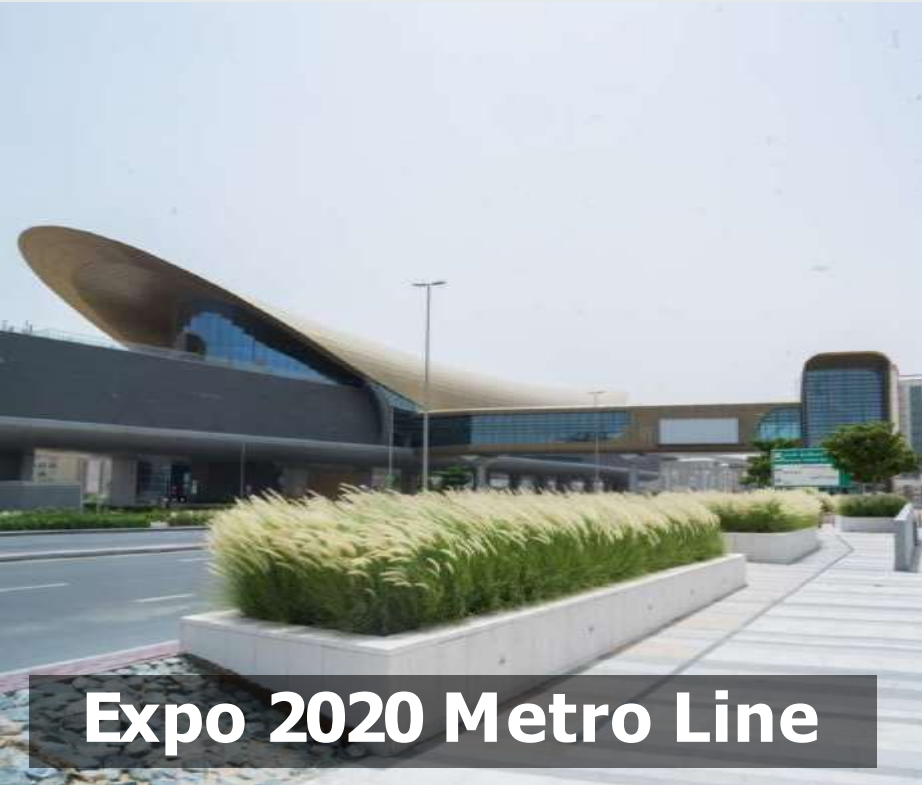

# Our Clientele

# Major Projects

# Nursery Division

Our skilled and qualified team in the art of nursery is continuously engaged in adaptation trials of new plant species, ranging from exotic to indigenous, in harsh climatic conditions of the Gulf region. Due to the increased interest and awareness of the role that indigenous plants can play in the landscape schemes, we are maintaining a large stock of native plants that consume less water and are environment friendly.

We are committed to lead the nursery sector in the middle east and to contribute positively to the field of Horticulture. Our people take pride in the production of premium quality plants along with wholesale and retail services.

Our endeavors to make UAE green and production of quality plants have been recognized with awards given by Government organizations.

# Nursery Division

- **NATIVE PLANTS ( FUTURE )**

Pearl garden has advanced expertise and unique experience in collection of seeds, propagation, and production of native desert plants. The intensive use of selected native species could be the most sustainable and economical way to reduce the pressure on the limited sweet soil and water resources, while developing beautiful greenery in large projects such as highways, buffer zones, etc.

- **SPECIMEN TREES ( FUTURE )**

The company has proven expertise and successful experience in sourcing, importation and planting of large specimen trees from Africa, America, Asia, Australia, Europe and Middle East.

- **OUR ASSOCIATE COMPANIES**

- Planters Mediterranean – Spain
- Fine Green Nursery Exports – India
- Flora tech agricultural imports and Exports – India
